

## Spokane Camp 2016

It was our first time to attend the Spokane camp meeting this year. The camp ran from 9-11 September. It was well attended and a great opportunity to meet some new people. We were very encouraged to hear the story of a new couple who had just come to the message about a month before camp, and they were sharing how the truth has drawn them closer to God. The theme of the camp was 'worship in the last days' and the messages covered this subject from a few different angles. The practical question of who we worship and how we worship are vital to understand for the final battle. The camp ended too soon, but we look forward to another gathering next year God willing.
