

Donnybrook Weekend Fellowship (Western Australia)

The weekend in Western Australia (20-23 October) was enjoyed by all. The believers there are growing and it's inspiring to see. We had a good turnout and study on Thursday evening exploring the subject of the Authority of the Son. Friday evening we studied the story of Jephthah and making a full commitment. Sabbath program included two messages in the morning followed by a question and discussion time after lunch. Nader was leading out in the messages with good input and contributions from others. The importance of the truth about God was seen in its relation to other deeper truths. It's exciting to see the group in Western Australia moving forward and growing.
